

OUR COMMITMENT TO QUALITY

Polarcus is committed to achieving high quality in every aspect of our business and ultimately in the delivery of marine geophysical services and seismic data to our clients.

We shall deliver high quality services and products that, as a minimum, meet all our clients' and other stakeholders' expectations through working safely, being environmentally aware and operating efficiently.

Our commitment ensures that processes and methods necessary to satisfy our stakeholders' requirements and expectations, as well as our own business objectives, are incorporated into the Company's Management System and practised effectively across the Company.

Polarcus promotes an understanding of quality through the personal and professional development, and appropriate training of our personnel in an ever-changing business environment.

We recognize employees for their contributions to the Company's Core Values of Responsibility, Innovation and Excellence.

Polarcus seeks to continuously improve the quality of our services to create value and ensure our clients have their needs met or exceeded. We continually measure our performance against stakeholder expectations and annually review our strategies and goals in order to deliver on our commitment to quality.

Polarcus systematically conducts audits and management reviews of internal departments and of our suppliers to ensure that our Management System delivers quality, is continuously improved, and is always effective and efficient.

Duncan Eley, CEO
